Draw your own Bear

Start with a circle, lightly
drawn with a pencil.

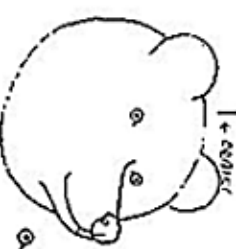

Add the nose's tip. Here it
is by itself. Under it
is the mouth.

Add two half
circles for ears.

The hard part. Drawing in
the long nose.
Here's the shape.

The eye begins as a dot. Add
a black middle. A tiny line
goes toward the nose.

I've added lots of detail. I've
put in his neck. The shaggy
fur lines are fun to draw.
